

Friends of  
Taupo Swamp  
& Catchment

Hi Swamp People

We are planning on planting about 1800 wetland trees & plants this coming planting season...

Meanwhile we need to take care of the plantings from last spring.

Just a quick reminder about the upcoming weeding dates.

We sure have a weed problem around the trees that we planted last spring and need any community help we can get in order to free up those carefully protected trees. An hour or so of your time for easy weeding/clearing will make a difference on any of these days (yes, we are having a blitz!).

**The weeding dates are:**

**Wednesday 12 February between 9 & midday,**

**Ditto 26 February, 11 March, 25 March, 8 April.**

**Meet in Ulric St by the foot-bridge to the new dog park. We can supply gloves, rakes and a treat for morning tea (thanks in advance to our local sponsors – Roger at Plimmerton Deli, and New World, Mana).**

cheers

Bill
