Taupo Swamp
& Catchment

6 May 2021

FOTSC update: We're planting this Saturday 8 May!

Kia ora supporters of Friends of Taupo Swamp & Catchment

Thanks to the recent efforts of our valued volunteers led by the FOTSC committee along with Richard, Chris and Simon we are now looking at doing our first planting for the 2021 season. We will start with infilling existing planted areas – now we know how successful particular plant species are in certain areas- we are certainly learning a lot, and with your support we are getting things done well up to schedule.

This Saturday 8th May- 9- midday. Meet us down at the Ulric Street Plimmerton wetlands just north of the Plimmerton Domain bridge which goes over to the dog park. You will see our white FOTSC table by the fence. If you arrive later (and any time you can give us is much appreciated) there are directions to show you where we are and a phone number if you get lost!

Thanks Te Rito Gardens for growing these healthy eco sourced plants for us!

If planting is not your thing we can find other jobs which need to be done – all energy levels catered for on the day.

Nga mihi

Judy and Bill and the FOTSC Committee
