Restoration Day

Hi all

Just a reminder that this **Wednesday (June 19th)** we are having another work day for clearing weeds and preparation for planting wetland trees and plants.

As previously, we will be meeting at 9am at the **footbridge** at the northern end of Plimmerton Domain. We will finish up about 2.30pm.

Bring along suitable clothing for working around blackberry. (tough gloves, gumboots, sunhat)

All efforts are appreciated. Come along for a shorter time or just to give support to the team.

Hopefully we will be ready to start planting Saturday June 29th.

cheers

Bill
