Taupo Swamp Planting Day

Kia ora

This coming Saturday, 21 September, FOTSC is going to combine with the local NZ Motor Caravans Assn people for a working bee.

We have another 330 trees & plants ready for planting in the area between the caravans site bund and Taupo Stream. In addition, we would like to get some weed mats, mulch and protection around some of the trees we planted last month. There is also a little weeding and blackberry removal to do.

Where? Meet at the NZMCA site in Ulric St, Plimmerton.

When ? 9 am to lunchtime. We will have trees in place by 10 but have other jobs to do prior to 10.

What to bring ? spade, gloves, gumboots or solid footwear (you won't be in mud).

NZMCA will have sausages to sizzle at lunchtime.

The forecast is great – we will be on the job – showers or shine or southerly.
Hope to see you on Saturday!

Bill
