

Friends of
Taupo Swamp
& Catchment

Urgent working bee

As a result of the big storm over the weekend many of our newly planted trees were covered in flood water. The water level is now quickly dropping but is leaving debris on the young trees.

We are putting a call out for locals to help out for an hour on Tuesday evening with clearing around the trees. 6pm onwards. Details will be on facebook pages.

A group from Whitby Scouts will be there at 6.30pm.

cheers

Bill
